

THE PLAYER GUIDE

Build your network. Climb the matrix.

Everything you need to know — how to join, how the autopool works, when to cash out or climb, and how the royalty rewards stack up. A five-stage points game built on a fair, transparent matrix.

Virtual points • no real money

A growth game, played on a living matrix.

Apex is a strategy game where you grow a network of players and earn **points** as it expands. You join once, take a position in the autopool, and fill your slots as new players arrive. At every stage you make a choice: **cash out** your points, or **climb** to a bigger stage with bigger rewards.

Simple to start

One join, one small entry — then your position works for you as the matrix fills.

Fair by design

Slots fill first-in-first-out. Whoever joined and upgraded first gets filled first — no jumping the queue.

You choose the pace

Take a payout the moment a stage completes, or roll it forward and climb higher.

Royalty on top

Refer players directly and share in a royalty pool paid out three times a month.

Important — it's all virtual

Apex runs entirely on virtual points. There are no real-money deposits, withdrawals, or payments of any kind. Points are for play within the game.

One entry. 50 points.

Joining Apex costs a single **50-point** entry. It's split into three parts — and every point is tracked transparently in your ledger.

10

ID & PIN

Sets up your account & secure identity in the system.

30

Autopool

Your Stage 1 entry — this is what earns as your slots fill.

10

Royalty

Goes into the shared royalty pool, paid back to top referrers.

$$10 + 30 + 10 = 50 \text{ points}$$

Getting started, step by step

- 1 Sign up with a referral link.** Use a friend's link so they're credited as your sponsor.
- 2 Your 50-point entry places you in Stage 1.** Two slots open beneath you automatically.
- 3 Share your own link.** As players join the matrix, they begin filling open slots — including yours.

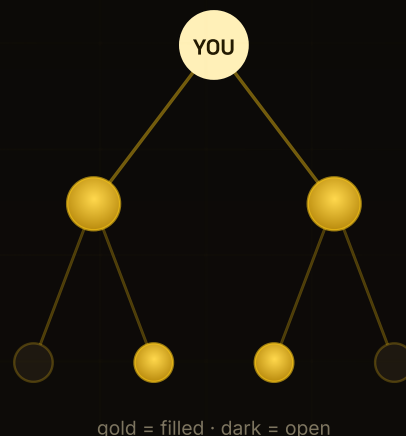

Fill your slots. Earn. Decide.

Each stage gives you a set number of **slots**. New players entering the autopool drop into the **oldest open slot first** (first-in-first-out). Every time someone fills one of your slots, their stage fee is credited to you.

When **all** your slots for a stage are filled, the stage is complete — and you unlock your move.

STAGE 1 EXAMPLE

Fill **2 slots** → earn each filler's entry → stage completes → choose **cash out** or **climb**.

The earning loop

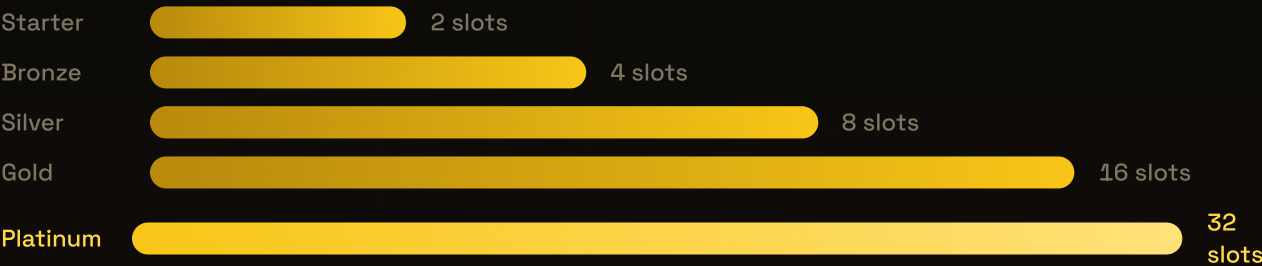

Each stage steeper than the last.

More slots to fill, a bigger pool to collect. Climb from Starter all the way to Platinum — or step off with your payout at any rung.

STAGE	NAME	SLOTS TO FILL	ENTRY
01	Starter	2	30
02	Bronze	4	50
03	Silver	8	150
04	Gold	16	1,000
05	Platinum	32	10,000

Visualised

Tip: the higher stages need more players beneath you — that’s what makes the top tier rare and rewarding. Build your direct network to keep your slots filling.

Cash out, or climb.

Every time a stage completes you get to choose. Here's exactly what each option gives you.

Exit

Take the payout

Cash a percentage of the points you collected at that stage and leave with it.

- **Stage 1:** withdraw **100%** — no restriction
- **Stages 2–4:** withdraw **30%**
- **Final stage:** full **100%** payout

Upgrade

Climb higher

Pocket a slice now and roll the rest into the next, bigger stage.

- Pocket **25%** right away
- The remaining **75%** funds your entry into the next stage
- Bigger stage → more slots → larger pool

Withdrawal at a glance

STAGE	EXIT PAYOUT	UPGRADE KEEPS
1 · Starter	100%	25%
2 · Bronze	30%	25%
3 · Silver	30%	25%
4 · Gold	30%	25%
5 · Platinum	100%	final

Refer more. Earn royalties.

A slice of every entry feeds a shared **royalty pool**, paid out **three times a month**.

The more players you **directly refer**, the bigger your rank — and your share.

RANK	DIRECT REFERRALS	SHARE OF POOL
Bronze	10+	10%
Silver	25+	12%
Gold	50+	18%
Platinum	100+	25%
Diamond	200+	30%

The 5% reserve fund

5% of every royalty distribution is held back in a **reserve fund**. It's shared with players who haven't cleared a stage in the last **6 months** — a safety net to keep everyone in the game. Once you receive it, you can qualify again after another 6 months under the same condition.

Note: "Direct referrals" means players who join using *your* link — counted separately from autopool placements. You're always placed in your highest qualifying rank.

Benefits & common questions.

Low entry, clear path.

A single 50-point start with a five-stage climb you can see end to end.

You stay in control.

Cash out or climb at every stage — never locked in.

Two ways to earn.

The autopool matrix *and* the royalty program reward your network.

Transparent ledger.

Every point in and out is recorded — check your history anytime.

FAQ

How fast do my slots fill?

It depends on how many players join after you and how active your network is. The fairer FIFO queue means earlier positions fill first.

Do I have to climb?

No. You can take your payout the moment any stage completes. Climbing is optional — it just unlocks bigger pools.

What do I need for royalties?

At least 10 direct referrals to enter the Bronze rank. More directs move you up the ranks for a larger share of the pool.

Is any of this real money?

No. Apex is a virtual-points game. Points have no cash value and there are no real-money transactions.

Ready to climb?

Grab a referral link, make your entry, and start filling your matrix.
